

SUSTAINABILITY & SOCIAL RESPONSIBILITY

Respect and care for our environment and our communities are core values at Elementis. It drives everything we do as part of our ongoing contributions to sustainable products, practices and policies.

ECOVADIS SILVER CSR RATING

We are proud to have been awarded a silver medal by ecovadis – putting us in the top 7% of reporting companies in our sector.

ECOCERT/COSMOS & ISO 16128

Many of our cosmetic additives have been reviewed and received COSMOS approval as natural. More than 30 of our Personal Care products have qualified under the ISO 16128 standard.

ROUNDTABLE FOR SUSTAINABLE PALM OIL (RSPO)

As a member of the Roundtable for Sustainable Palm Oil (RSPO) program we help preserve the rain forest by using sustainable palm oil derived products in our manufacturing.

BOTANICAL SOLUTIONS

We offer a range of high-performance botanical active ingredients based on meadowfoam seed oil that is sourced from a community of sustainable family-owned farms in Oregon, USA.

MINERALS FROM NATURE

We apply state-of-the-art technology to transform natural hectorite and talc minerals to become high-quality, high-performing natural ingredients.

NON-ANIMAL TESTING | VEGAN

Ask us about products that are non-animal tested or vegan.

Our sustainability programs extend into the communities where we live and work.

Our hectorite clay mine is in the Mojave Desert. Desert tortoises, a protected species live in this desert. To support and protect biodiversity in the area, special fences have been erected to keep the tortoises away from our operations at the mine. We have a certified biologist on call to remove tortoises that make their way behind the fencing. They are immediately and safely returned to their own habitat.
